

The award-winning booking management platform used at sports & activity studios

Coordinate multiple schedules
Manage your studio facilities

We know running a sports & activity studio isn't easy. That's why we created fibodo

Over the years, it's become ever easier to buy, eat, sit and watch – and it's become ever more difficult to actually do something active, to get up and get out there, even if you have the motivation

We believe technology should work, make things simple, so we created fibodo (find it. book it. do it.)

Coordinate multiple schedules and manage your studio facilities

fibodo offers a simple way to coordinate multiple schedules and manage your studio facilities to maximise available capacity, increasing profitability

Centralised booking management means you take payments in real time, with no chance of double booking, build a stronger brand across all communications and maintain ownership of client data
